

End-to-End QC Solutions for Cell & Gene Therapies

Analytical method design ▶ Technology transfer ▶ Qualification ▶ Validation ▶ Partial release

We provide expert QC services, ensuring the quality and reliability of advanced biologics and gene therapies. From pre-clinical studies to clinical trials and commercial production, we support your development at every phase, delivering accurate, precise, and timely results.

Preclinical

Phase I

Phase II

Phase III

Commercial

ACCELERATING THERAPIES WITHOUT COMPROMISING QUALITY
