

Accelerating research into reality.

At Revvity, we are committed to accelerating breakthroughs in cell and gene therapy by pushing the boundaries of what's possible. Our focused CGT strategy spans assays, instruments, services, and therapeutic licenses, driving innovation at every stage of development.

Our solutions are designed to support your research every step of the way, from **discovery** and **therapeutic payload and delivery**, to **manufacturing and scale-up**, and **QA/QC for efficacy and safety**.

With Revvity by your side, you can focus on transforming the future of healthcare.

Join us and explore how our solutions can support your research and development needs.

Meet us at ESGCT 2025 booth #C20

Together, we can accelerate the next generation of therapies.

For research use only. Not for use in diagnostic procedures.
